Meeting Agenda

Group: OOPP-Group77
Date: 2/9
Chair: Hampus
Participants: Hampus, Elin, Alexey, David, Martin

Objectives (5 min)

- We need to decide on a project idea.
- We need to assign tasks (assignments).

Reports (15 min) from previous meeting

NA.

Discussion items (35 min)

- Project ideas.

Outcomes and assignments (5 min)

Outcomes:
- The group discussed different project ideas. Among the ideas were an email application, a work schedule application, some kind of game and a paint-like application.
- The group decided to work on the email application, since it should be a fairly intuitive application and Martin has even looked up some useful APIs.
- We plan on using at least the following APIs:
    - JavaFX
    - Possibly https://www.simplejavamail.org/ (sending email)
    - https://javaee.github.io/javamail/#API_Documentation (receiving email, and possibly also for sending)

Assignments:
- The group will together for now:
    - Write user stories.
    - Sketch on a GUI.
- The group members will both together and individually:
    - Read up on the APIs.

Wrap up

The next meeting will take place Monday 6/9 at 15:00, remotely via Zoom.
